Email; citralug@gmail.com

1.3 Organization Background.

Community Initiative To Transform Lives is a registered group in Isingiro district whose operations started in 2016/2017 mainly dealing in Community Health, waste Management, environmental restoration, skills development, economic strengthening, SGBV, Child Protection & Improved Agricultural practices in Isingiro District.

1.4 Overall Goal.

The overall goal of the group is to have healthy population with functional skills improved, household income and sustainable development enabled by year 2030.

1.5 Vision.

Transforming Lives Together for a Self-Sustaining Community.

1.6 Mission.

Achieving a healthy population, living in a safe environment, with functional skills, improved household income and holistic development through finding solutions with community

1.7 Organization's Main objectives

1. To increase access to health services in communities and empower all women and girls through improving maternal health, reducing child mortality, mental health, SRHR especially for AGYW, malaria, HIV/AIDs, TB and other diseases.
2. To promote the use of accessible, affordable, reliable, sustainable and modern household energy solutions through education systems and institutionalization as a way to reduce deforestation and emission of global warming gasses to the atmosphere.
3. Enhance livelihood conditions of the youth, women and other vulnerable groups for consistent and sustainable outcomes.
4. Increased access to clean, safe drinking water and improved hygiene and sanitation.

1.7.1 Specific Objectives

1. Raise awareness on comprehensive antenatal care, HIV prevention, and reproductive health rights.
2. Engage youth and women in viable enterprises to boost household income and enhance their economic empowerment.
3. Promote community-led initiatives for the prevention and response to SGBV (Sexual and Gender-Based Violence).
4. Provide support and multi-sectoral services to SGBV survivors, including mental health services.
5. Strengthen access to mental health resources and psychosocial support for individuals affected by trauma, including survivors of violence.
6. Conduct community dialogues on TB, malaria, HIV awareness, and sexual and reproductive health, ensuring access to testing and treatment services.
7. Empower women and girls through educational programs on rights, health, and economic independence.
8. Facilitate training programs focusing on self-advocacy, leadership skills, and financial literacy for women and girls.
9. Increase access to clean and safe drinking water.
10. Support the restoration of degraded habitats on public and private land through vegetation restoration.
11. Strengthen access to affordable hygiene and sanitation facilities in the community.
12. To create awareness on rational of clean and modern energy.
13. Training of community members on the establishment of alternative energy sources.
14. Integrate the energy conservation interventions in the government structures.
15. To strengthen school health programs.
16. Conduct training of farmers on value addition to the agricultural produce.
17. Strengthen partnership with religious institutions with aim of reducing SGBV in the community.
14. Ensure the inclusion of the vulnerable groups in all the interventions of the organization.
